

Tire Sentry®

ADVANCED TIRE PRESSURE MONITORING SYSTEM MONITORS FOR LOW TIRE PRESSURE FROM YOUR INSTRUMENT PANEL

Now you can monitor all 6 tires on your Truck or Bus from your instrument panel by wireless remote RF transmission.

The unique *electronic valve cap* attaches to your tire's valve-stem contains a Pressure Sensor and a wireless RF transmitter that alerts you to a developing tire problem.

A pedestal-mount Display Instrument shows which tire is losing air pressure long before it becomes damaged or unsafe to drive on.

CONTINUOUSLY MONITORS FOR LOW TIRE PRESSURE

- HELPS TO KEEP TIRES PROPERLY INFLATED
- WARNS OF A LOSS OF TIRE PRESSURE OR OF A DEVELOPING TIRE PROBLEM
- HELPS PREVENT TIRE AND CASING DAMAGE
- IMPROVES FUEL EFFICIENCY
- HELPS REDUCE TIRE MAINTENANCE COST

EASY TO INSTALL and TO OPERATE

AN INVALUABLE TOOL FOR EFFICIENT PM PROGRAMS

Tire Pressure Sensors are Theft-Proof
